# COMMUNITY NOTICE

As some of you may know, we recently shared a "CALL OUT" letter on social media seeking local professionals, including lash technicians, nail technicians, hairstylists and barbers for men and women, and makeup artists.

Please note we are also seeking massage therapists.

To give the community and those local professionals more information as to why we are seeking these individuals is because we would like to organize a community self-care and wellness event centered on self-love, wellness, confidence, and holistic well-being, next month on February 21, 2026.

The idea is to bring local estheticians and service providers together to offer services such as haircuts, hairstyling, makeup, nails, lashes and more in a supportive, welcoming space. Please note that professional individuals will be paid for their time as well.
